# 06 Sustainability

**Together, we can  
make a difference**

**The Social Hub is on a journey to remain as responsible and impactful as possible – both in terms of how we build our hotels and how we engage with communities. We believe in leading by example, collaborating and driving industry change whenever we can, all while setting realistic, measurable sustainability goals.**

## **Towels**

By hanging up your towel you can show housekeeping that you want to reuse your towel. This helps to save up to 60 liters of water during your stay.

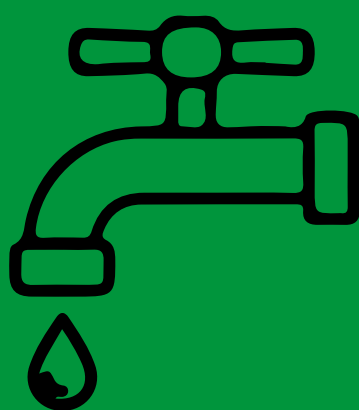

## **Sustainable Toiletries**

We offer toothbrushes made from corn starch that are packaged in recycled paper and use a soap pump in the bathrooms instead of soap bars to reduce waste. This alone could save up to 2.500 kg of waste per year.

## **The Good Roll**

100% tree-friendly and sustainable toilet paper, with 50% of profits donated to build toilets in Ghanaian communities. By using toilet paper you contribute to this mission.

## **Tap Water**

Reduce plastic waste and drink safe water from the tap in your room.
